

PRECAUTIONS IN ONLY FUNCTIONING EAR

Your Care Instructions

- Avoid putting pointing object like pins,pencils and buds etc,in your ear; Avoid blowing of nose.
- Always inform your doctor, that you are not hearing in one ear to your treating physician so that he can avoid certain medicines.
- Always stay away from loud noise so that you can avoid ear trauma in your better ear like bursting of crackers etc.
- Do not involve in any type of fight so that you can avoid ear trauma.
- Treat your cold,cough & fever on priority basis.
- Do not put water, soap and oil in ear.

BEFORE FLYING:-

- Always treat your common cold before you fly.
- Put decongestant nasal drops 40minutes before you board your flight.
- When flying in an airplane ,swallow and yawn frequently when the plane is ascending and descending to equalize pressure in your ears. If you have an upper respiratory problem such as cold or sinus infection, take a decongestant a few hours before descending, or use a decongestant spray just prior to descent and on landing.
